

FIBRESPEED  
CONNECTING WALES

FIBRESPEED HAS SPREAD ITS WINGS...  
...CONNECT AND FLY WITH US

FAST WIRELESS TELECOMS AND INTERNET FOR NORTH WALES TOWNS, VILLAGES,  
AND RURAL COMMUNITIES

# FIBRESPEED – NOW YOU TOO CAN CONNECT

FIBRESPEED IS SPREADING ITS WINGS.

**Building on the success of our high-speed, digital services for businesses on business parks in North Wales, we are working with wireless Service Providers to extend the provision of affordable fast Internet for many more users across North Wales. These new services are fast, reliable alternatives to traditional telephone broadband connections, and can be accessed in towns, villages, communities and rural areas across the region.**

#### **A few reasons why you should connect via a FibreSpeed Service Provider:**

- Simple wireless set-up, minimal capital outlay, affordable monthly fees comparable to existing broadband services.
- Upload speeds are much faster than traditional broadband – no more waiting to send large files.
- You get what you pay for – unlike traditional broadband services a 6Mb FibreSpeed service gives you 6Mb download speeds, consistently, no matter how many users or time of day.
- Save money and use the extra bandwidth to make free or low cost phone calls – no need to pay for telephone line rental.
- The new services cover a number of broadband “not-spots” as FibreSpeed does not rely on phone lines and distance to old telephone exchanges.

## CAN I RECEIVE WIRELESS FIBRESPEED SERVICES?

### **Ask our specialist wireless Service Providers.**

These independent companies are experienced in the supply of reliable, next-generation wireless communications and IT technology.

They understand your needs and will explain the options available to you.

#### **AB Internet**

*“Through the FibreSpeed platform, AB Internet’s unique wireless services release consumers from the frustrating grip of the ‘not-spot’, and free businesses from their restricted choice by providing high capacity dedicated business connectivity.”*

**Neil Tucker**, Sales and Marketing Manager, AB Internet
